### RECOMMENDED BROWSER

It is likely you have a preferred Internet Browser that you utilize daily. However, it is important to be aware that not all web browsers are created the same. And these differences can be significant in how they affect the functionality and appearance of websites. As a result, you may experience issues when accessing the Library's databases and other online resources depending on which Browser you regularly use. If you are having problems accessing the Library's databases and resources, you may wish to explore using a different Browser. The Library has found, and recommends, **Google Chrome** to be the most consistent overall in successfully utilizing the many various Library databases and online resources. Though not always the most popular, please consider using this particular Browser for the Sonoran Library resources.

Meanwhile, on occasion, you may still experience issues with accessing your Library account and databases. Some troubleshooting tips that the Library recommends can be related to any of your Browsers and their settings. Remember to regularly clear the Cache in your Browser. Regularly rebooting, closing and reopening, your Browser can also be significant. Additionally, sometimes you will need to turn on your Pop-Up feature. And sometimes, making sure your Browser is current can be a factor. Be sure that your computer is regularly successfully updating, and often just rebooting your computer completely can make a big difference.

Please consider and make sure to try all of these troubleshooting tips before contacting the Library about account and database access issues.

It is a reality that “Life Happens while you are busy making other plans”. Medical School is no different. It is understood that outside forces may prevent you from making it to a scheduled exam. In addition to the many functions of the Sonoran University Library, and among the various rooms and resources, the Library also has a Testing Center, which is utilized in conjunction with the Dean of Students Office, and the Accessibility Office, for those times when unforeseen events occur.
