ACLAND'S VIDEO ATLAS OF
HUMAN ANATOMY

Acland's Video Atlas of Human Anatomy is a series of anatomy lessons on video presented by Robert D. Acland. Dr. Acland was a professor of surgery in the division of plastic and reconstructive surgery at the University of Louisville School of Medicine. The Atlas was originally released as a series of VHS tapes, published individually between 1995 and 2003. The series was re-released in 2003 on DVD as *Acland's DVD Atlas of Human Anatomy* (available for checkout from the Library) and is now an online resource available through the Sonoran Library's MySonoran page. The **Acland's Video Atlas of Human Anatomy** contains nearly 330 **videos**, broken down into 30 second to 5 minutes in length, of real **human** anatomic specimens in their natural colors, including 5 new, groundbreaking **videos** of the inner ear. This is a real 3-D look at the human anatomy as Dr. Robert **Acland** presents moving structures — muscles, tendons, and joints — making the same movements that they make in life. It is a very popular video series amongst medical and non-medical personnel alike.

This is a great supplement for the Cadaver lab experience, and is great for reviewing and retaining your basic anatomy knowledge as you move beyond your basic science curriculum.

COLLEGE OF NATUROPATHIC MEDICINE News & Information

!! IMPORTANT !! -- CLINIC BOOK COLLECTION

Did you know that the Library has a collection of books at the Sonoran University Medical Center, aka the Clinic? These reference resources support the Students and Physicians in Clinical Practice.

This collection of books are in the little room, near the back entrance, where the copier/printer is located. Small reading desk space is available there as well. These books are intended as “quick reference” resources to help with patient diagnosis and treatments, so it is very important that they do not leave the Clinic under any circumstances. It is also most helpful if the books not be left in the classrooms and instead are returned to the shelving as soon as possible for availability by the other physicians and students on the same or later shifts. The books are marked as property of the Library and are cataloged and shelved by call number order accordingly. Library staff visits the Clinic once a week to re-organize the shelves and check on the status of the books there. All Clinic books can be found in the Sonoran Library catalog, and only in extremely rare circumstances are there books in the Clinic that cannot also be found in the Library on Campus. So if you need a particular book for an extended period, please check it out from the main library.

I want to emphasize the importance of these books remaining at the Clinic as these books can help make the difference in determining accurate diagnosis and treatments. I’m sure that you can see the importance of this not only as a doctor, but from the perspective of a patient.
